

PROFESSIONAL SUMMARY

Full-Stack Designer / UX Engineer with 18+ years across enterprise UX, responsive product design, design systems, accessibility and frontend engineering. Combines hands-on Figma and UI design with React-aligned implementation, reusable component architecture, stakeholder collaboration and delivery leadership across logistics, HR technology, healthcare, pharma, banking and financial services.

KEY STRENGTHS

- Enterprise UX & Product
- Design Systems & Tokens
- Figma Components & Prototyping
- React / HTML / CSS / JavaScript
- Design-to-Code Handoff
- WCAG 2.1 AA Accessibility
- GCC / RTL-LTR Experience
- Team Leadership & Mentoring

CORE CAPABILITIES

Product & UX Design: Enterprise UX · Responsive Web & Application Design · Information Architecture · Wireframing · Prototyping · Interaction Design

Design Systems: Figma Auto Layout · Components · Variants · Variables/Tokens · Governance · Reusable Patterns · Documentation · Storybook

Frontend & Delivery: HTML5 · CSS3 · JavaScript (ES6+) · React.js · Responsive UI · Component Engineering · Technical Feasibility · UI QA

Collaboration & Leadership: Stakeholder Alignment · Design Reviews · Developer Handoff · Mentoring · Product / Engineering Collaboration · Delivery Support

AI-Enabled Workflow: ChatGPT · GitHub Copilot · Figma AI · Gemini · AI-assisted Research · Prototyping · Documentation · Design-to-Code

Accessibility & Global UX: WCAG 2.1 AA · Responsive Design · RTL/LTR · Cross-device Patterns · Enterprise Standards · Design Consistency

PROFESSIONAL EXPERIENCE

Lead Engineer – Design | Sagarsoft India Ltd. · Hyderabad

Dec 2023 – Present

- Design responsive, production-ready web and application interfaces across desktop, tablet, and mobile, translating incomplete or complex requirements into clear, buildable UI systems.
- Create wireframes, visual UI, interactive prototypes, responsive rules, and implementation guidance with Product and Engineering teams, balancing visual quality with technical feasibility.
- Build and govern design systems using tokens, reusable components, spacing rules, accessibility standards, and React-aligned implementation patterns to reduce repeated work.
- Stay involved after handoff through design reviews, developer collaboration, implementation alignment, and UI QA so shipped experiences remain faithful, accessible, and maintainable.
- Apply AI-assisted workflows to research synthesis, prototyping, documentation, component scaffolding, and design-to-code exploration with human review.

Senior Software Engineer – UI | Sapplica Info Technologies, Hyderabad

Mar 2016 – Nov 2023

- Designed and developed responsive web and mobile interfaces across Healthcare, Pharmaceutical, Banking, and Logistics, combining visual UI design with HTML/CSS/JavaScript and React implementation.
- Established reusable component patterns, frontend structures, documentation, and design-to-development handoff practices across multiple client and enterprise applications.
- Developed responsive Veeva CRM Approved Email templates and interactive CLM presentations with reusable layouts, cross-device compatibility, brand consistency, and platform compliance.
- Designed medication-reminder and scheduling experiences for the PAQ Dose Reminder mobile application and collaborated on reusable React Native UI implementation.
- Collaborated with distributed UX, QA, Product, and Engineering teams through design reviews, implementation testing, and release support.

FULL-STACK DESIGNER / UX ENGINEER

Enterprise UX · Design Systems · React UI · Accessibility · AI-enabled Product Design

Serving Notice · Early Release

EARLIER EXPERIENCE

Senior Software Engineer – UI

Sagarsoft India Ltd. · Dec 2015 – Feb 2016

Senior Designer

Ushakiron Movies (Ramoji Film City) · Oct 2014 – Feb 2015

Web Designer

e-Thamarat, Saudi Arabia · May 2011 – Dec 2011

Graphic Designer

Media Concepts · Sep 2007 – Feb 2010

Senior Front End Developer

Sartora Digital · Mar 2015 – Sep 2015

Senior Web Designer

INET Hosting Solutions · Dec 2011 – Sep 2014

Web Graphic Designer

Kochar Infotech · Mar 2010 – Feb 2011

Build-aware design practice: I work across product design, design systems, frontend collaboration and implementation QA, helping teams move from complex requirements to scalable, accessible and production-ready experiences.

PORTFOLIO & CASE STUDIES

Enterprise UX, Design Systems & Frontend Engineering Portfolio

Case studies across HR, Logistics, Healthcare, Financial Services, Pharmaceutical, Banking, and KSA-focused digital experiences.

[Portfolio](#) [LinkedIn](#) [GitHub](#) [Dribbble](#)

SELECTED SHIPPED WORK

- **Mora – Ijarah Finance, KSA:** Simplified a complex loan application into a structured seven-step origination journey, supported by stakeholder workshops, wireframes, prototypes, bilingual/RTL considerations, and reusable UI standards.
- **Sentrifugo HRMS:** Unified UX across Employee Self Service, Timesheets, Leave Management, Service Requests, and conversational AI experiences using reusable design patterns and React components.
- **Walmart Dispatcher:** Redesigned fragmented logistics workflows into a consolidated operational dashboard, improving visibility across trips, drivers, deliveries, and daily activities.
- **Takeda – Takhzyro BIM:** Transformed complex Excel-based healthcare workflows into a responsive, WCAG-focused React application; delivered within a critical timeline and received client appreciation.
- **Veeva CRM – CLM:** Designed and developed compliant CLM presentations and responsive Approved Email templates using reusable content patterns and consistent brand standards.
- **Bank of Baroda:** Redesigned enterprise recruitment journeys covering candidate registration, job search, application, navigation, and responsive web experiences.

PROFESSIONAL DEVELOPMENT & PROJECTS

- **AI UX Audit Lite:** An evidence-led UX review product being developed to evaluate interface usability, accessibility, content and experience risks, with structured findings and improvement guidance.
- **Design Token Studio:** A design-system utility in development for creating, organising and previewing reusable design tokens across product and front-end workflows.
- **JobFit Browser Extension:** A Chrome extension in development for analysing job descriptions against career evidence, identifying gaps and supporting factual CV tailoring.
- **Professional Development:** Continued hands-on exploration in React, design systems and Generative AI, including design tokens, component architecture and AI-assisted design-to-code workflows.

TOOLS

- **Design:** Figma · Adobe XD · Photoshop · Illustrator · Storybook
- **Frontend:** React.js · React Native · JavaScript (ES6+) · HTML5 · CSS3
- **Enterprise & Delivery:** Azure DevOps · GitHub · Jira · Salesforce · Veeva CRM
- **AI & Productivity:** ChatGPT · GitHub Copilot · Figma AI · Lovable · Gemini

EDUCATION

B.Sc. Multimedia

Sikkim Manipal University · 2004 – 2007
